PROFESSIONAL SUMMARY

Entry-level Software Developer with strong knowledge of Java, Spring Boot, Spring Data JPA, REST APIs, SQL, and full-stack development. Skilled in React.js, Node.js, Express.js, MySQL, PostgreSQL, and MongoDB, with practical experience through academic and personal projects. Strong understanding of OOP, JDBC, authentication, API development, UI/UX, and Agile SDLC.

TECHNICAL SKILLS

Programming Languages: Java, SQL, JavaScript (ES6+), C, C++
Core Java: Object-Oriented Programming, Collections, Exception Handling, Multithreading, JDBC, File Handling
Backend: Spring Boot, Spring Data JPA, REST APIs, Node.js, Express.js, JWT Authentication, Swagger / OpenAPI
Frontend: React.js, HTML5, CSS3, Bootstrap, Tailwind CSS
Databases: MySQL, MongoDB, PostgreSQL
UI/UX: UI/UX Design, Wireframing, Prototyping, Figma
Tools & Practices: Git, GitHub, Postman, VS Code, Eclipse, Agile SDLC, Performance Optimization, SEO Basics

CORE STRENGTHS

- Strong foundation in Java, Object-Oriented Programming, SQL, and database concepts.
- Good understanding of REST API development, debugging, and application testing.
- Strong analytical and problem-solving skills with attention to code quality.
- Quick learner with strong communication, adaptability, and teamwork skills in collaborative development environments.

PROJECTS

SpiceSprint - Food & Grocery Delivery Application Source Code Live

- Developed a responsive full-stack food and grocery delivery application with React.js, Node.js, Express.js, and MongoDB.
- Designed and implemented REST APIs and CRUD operations for application data and backend services.
- Implemented JWT-based authentication and integrated frontend components with backend REST APIs.
- Designed responsive user interfaces using React.js, HTML5, CSS3, Bootstrap, and Tailwind CSS.
- Used Git and GitHub for version control and managed the frontend deployment using Vercel.

Online Test Platform Source Code

- Built a full-stack online examination platform with secure user authentication and automated test evaluation.
- Implemented randomized multiple-choice questions, countdown timer, next/previous navigation, automatic submission, and result calculation.
- Developed backend APIs and database operations for managing users, questions, examinations, and results.
- Integrated React.js frontend with backend services and tested REST API functionality using Postman.

INTERNSHIPS

Web Development Intern - Unified Mentor Pvt. Ltd.

- Developed and optimized web applications using frontend technologies, backend services, REST APIs, and databases.
- Worked with Git-based development workflows, debugging, API integration, and application testing.
- Collaborated with team members to implement application features and resolve development issues.

UI/UX Intern - Xavirgin (OPC) Private Limited

- Designed and improved user interfaces for internal company products using UI/UX design principles, wireframing, prototyping, and Figma.
- Participated in requirement analysis and UI restructuring to improve usability, consistency, and responsive design.
- Collaborated with development teams in an Agile SDLC environment to translate design requirements into practical application interfaces.

EDUCATION

Lakireddy Bali Reddy College of Engineering	Graduated 04/2024
Bachelor of Technology in Electronics and Communication Engineering	CGPA: 7.66
Sri Gayatri Junior College	2018–2020
Intermediate	CGPA: 8.78

CERTIFICATIONS

- IBM Full Stack Software Developer
- Learn Programming with Java – Infosys Springboard
- Career Essentials in Software Development – Microsoft & LinkedIn
- Google UX Design Professional Certificate
